Miscellaneous \$4,311 (2%)

Team Mojo Foundation is a 100% volunteer 501c3 nonprofit public charity. We have no paid employees or expense accounts. Our overhead since 2010 is 23%, significantly less than the national average of 37%*. What this means is: 77% of the funds we've collected has been donated to local Tri-State area underprivileged school-aged children in the form of financial assistance. With our help these kids are able to participate in important events and activities they would otherwise miss out on, which is the definition of our mission statement. However, our "Every Day Giving" is outpacing our funding; Team Mojo is seeking financial backing to continue Helping Kids Shine. Your tax-deductible donation will help us do just that.
